

Monthly Report - November

Name: Rocky

Total Time: 9 classes (18 h)

November 1: JavaScript Library: React.js

November 7: React Monster Attack Project

November 8: JavaScript Library: Vue.js

November 14: Vue Bootstrap UI Library

November 15: Portfolio Project by Vue

November 21: Vue.js Exchange Rate Project

November 22: JavaScript Advanced Concepts

November 28: JavaScript Library - React Native

November 29: Mobile App Project - Expo CLI

Feedback: In this month, some advanced concepts in programming were introduced by JavaScript. Rocky has learned some advanced skills in web development and some basic knowledge in mobile development. Next step, we will learn some new programming languages like C# or C++ for competition and we can move to desktop development.
